China Will Fly. Very Foolish Fines. So D- Complete. I'll Stay With You,

By ARTHUR BRISBANE. (Copyright, 1919.)

The President of China says his nation has a definite serial pro-Chinese are working at flying machines, in spite of all their Shantung sorrow, and hope good fliers will make up for bad roads. Bad is not the word for roads in China, where carrying a ton of freight one mile costs several hundred per cent more than in America in spite of the cheap Chinese labor. Active brains more than make up for expensive labor, although the active brains do not aways realize it.

China's flying program, that of Japan and other nations, are vitally important to the United States. Now the real ocean is the air. Bernard Shaw speaks of North and South America as two great island nations dangerously situated. Every nation is an island essily attacked through the air, exposed through the ocean of air above it.

Once we might have called this nation secure, for enemies landing on our coast by steamship would have a dreary time marching inland to conquer Champ Clark's Missouri or Lowden's Illinois. Now give the enemy a landing place with his flying machines and an attack on all American cities would be simple. Even without a landing arranged the fliers may come. For fliers have crossed the ocean already. Caproni recently flew with eighteen passengers over the Alps. The flying machine able to go around the earth is not

It is hone too soon for this country to examine the aerial programs of other nations and study the best way to avoid aerial Asiatic flying prointerest us especially. They have material to make the machinery, reckless men, caring nothing about death, to handle the machines, and anybody can make

It is a disturbing thought that a flock of flying machines built in the interior of China and Japan might be dropping dynamite on San Francisco three days later, on Chicago and New York a few hours after San Francisco's hom-

It takes human beings a long time to realize great changes. They went on manufacturing fine steel armor at Milan long after powder and bullets had made armor worthless. We shall probably go on building heavy steel ships and neglecting our flying navy for years after the perfect-France and England, breeding

statesmen instead of politicians, are spending hundreds of millions on flying machines, not fooled by any peace league millennium. And this nation, having been cheated of hundreds of millions by "highly efficient patriots" in its six-hundred-million dollar air graft, does

Mother Jones and three other organisers of the American Federation of Labor are fined \$100 each by the mayor of Duquesne for holding a meeting of iron workers without first obtaining a permit.

The organizers had plans for bettering the workers' wages. Observe that the executive committee of the United States Steel Corporaion, or any other trust, could hold a meeting in Duquesne or anywhere else, to increase prices and tax the public without having to get a permit and without danger of being fined.

In that situation there is a danger, but not a danger for the workmen. They have the ballot, and with it can adjust their affairs. The danger is for the Steel Trust and similar concerns that do not read history intelligently, especially Russian history.

A gentleman laughed when his barn burned down, his wife ran away, his bank failed, all on the same day. He said he had to laugh because it was "so damned

You may make the best of it. and laugh about the "damned complete" manner in which your country was robbed by the Patrioteers in war.

You remember Kerensky flourished for a few days until Bol-shevism got him. You remember the grand Elihu Root excursion to Russia and the fine speeches about our Sister Republic. Especially you remember the hundreds of millions sent Russia by this noble na-The question was often asked in this column and else-

where, "Who got that money?" Now a Washington investigation shows that the money went about as far as the corner of Broad and Wall streets. None as far as Russia. It was used to pay men here that speculated in Russian credits at tremendous rates of

In other words, the little American paid taxes and bought war bonds to pay one hundred cents on the dollar to American trusts for the bad Russian debts, and that was called "nobly helping Russia." No wonder Bolshevism came in. The humor comes with the discovery that part of the money lent to Russia struggling for freedom paid for two hundred thousand pounds of gunpowder that would not explode. First it was sold to England. England took one hasty look and passed it on to Russia. It would not explode in Russia and

came back here. But you paid for it, in war bonds and taxes, in that "noble loan to (Continued on Page 2, Column 5.)

### Unreserved Ratification OF PEACE TREATY

WILL RESTORE NORMAL CON-DITIONS AND STABILIZE WHOLE COUNTRY

By FRANK R. LAMB.

Staff Correspondent of The Washington Times.

ST. PAUL, Minn., Sept. 10 .-"Ratification or ruin or rusted."-L. W. Hill, head of the railroad system built by his father, James J. Hill, pioneer railroader and worshiped in the "blond belt." "I am for the League of Nations and the principle that makes the workers a part of the country, and I know that the voters of Minnesota have the most explicit trust in President Wilson as the great man who guides in something, now that the war is over, that will get us all back to old-time conditions."-

Mayor L. H. Hodgson. "We want peace which will not be unmindful of a world regard for conditions everywhere; but first we want positive peace by those who have the best knowledge of the inside of universal conditions."-Governor Burnquist.

Fear Laffer Unrest. Those are sentiments here among a prosperous people. The labor unrest in this section is well defined, and the patriotic citizens know its source. All in (Continued on Page 2, Column 6.)

# Senate Gets Treaty and Adverse League Report, Criticising President

Accompanied by a six-page report, sprinkled with sharp and bitter phrases directed at President Wilson, the peace treaty today was submitted to the Senate by the Foreign Relations Committee.

The report was filed by Senator Lodge and represents the views of the majority of the committee. A minority re port will be filed by Senator Hitchcock.

Makes Reply to the President.
